

# REGION 8 ONLINE DEVOTIONAL PROGRAM

Tuesday the 25th at 7PM

Vedam and Bhajans Followed by Guest Speakers

*"Healthy Living"*

**Dr. Supriya Bavisetty** is a general pediatrician working currently at Olive View-UCLA Medical Center. She feels blessed to have been born into a Sai family, has grown up with SSE and is currently an active young adult. She is currently the Assistant Regional Medical Director and will be sharing on the topic of Healthy Living- a kid's perspective.

**Dr. Nilem Patel** is very fortunate to be part of a family devoted to the service of Sai. Being a graduate of (SSE) Sai Spiritual Education and having great role models around her has molded and influenced Nilem to serve others. Her service has included Vice President of the Glendale center, Assistant Regional Medical Director and is now our Regional Medical Director. Additionally, for years she has served the children by helping with SSE at the Glendale Center by herself being a very good role model. In her first year of college, Swami insisted that Nilem go into medicine in order to help others. After which there were times she thought to deviate from medicine. But each time Swami insisted she stay in medicine! Dr. Nilem Patel now serves all those who come to her as an Endocrinologist in Los Angeles. Please join us for her presentation on Healthy Living...
